Assistant A
Wait, are you going to add lettuce? This order is fish and chips. get the chips from the fryer instead.
Oh, right. I went to the wrong station.
Error prevented
Assistant B
You've added lettuce instead of chips. Empty the plate into the trash, then start again with fish and chips.
User: high trust in AI
Okay, I'll empty it. Can you walk me through what I should do to start again?
Recovery begins
Set the plate on an empty counter, then fetch a fresh fish. We'll cook that next. …
User: low trust in AI
Are you sure? I thought I followed the order. Check the plate again.
The green leaves are lettuce. The order calls for fish and chips, not lettuce.
All right, I see it now. I'll restart.
Recovery begins
