

Simulated human error: wrong ingredient — lettuce instead of fried potato

Assistant A

At lettuce

Wait, that's lettuce. Leave it there and scoop the chips from the fryer onto your fish.

Oh, right. I'll go to the fryer instead.

Scoop chips

Assistant B

Scoop lettuce

You've added lettuce instead of chips. That plate won't match the order now. Take it to the trash and empty the contents; you'll keep the plate.

High trust

Step-by-step

Okay, I'll empty it. What do I need to do next?

Empty plate

Set the plate on an empty counter, then fetch a fresh fish. We'll cook that next.

Low trust

Dislikes interruptions

Why throw the fish away too? Can't I just take the lettuce off?

It won't match the order with lettuce on it. You can only empty the whole plate.

Fine. I'll take it from here.

Empty plate

Assistant C

(silent)

Scoop lettuce → go to pass → serve

Order rejected
