

Error begins

Lettuce instead of chips
A responds

Point of no return

Lettuce added to the plate

Episode time

Not to scale

B responds

Assistant A

Wait—that's lettuce, not chips. You already have fish on the plate; get the chips from the fryer instead.

Oh, right. I went to the wrong station. I'll get the chips instead.

Error prevented

Assistant C

Error persists
Order rejected

Assistant B

Two user continuations

You've added lettuce instead of chips. The plate won't match the order now, and you can't remove just the lettuce. Take it to the trash and empty the contents; you'll keep the plate.

High trust

Welcomes step-by-step guidance

Okay, I'll empty it. Can you walk me through what I should do to start again?

Recovery begins

Set the plate on an empty counter, then fetch a fresh fish. We'll cook that next.

Low trust

Dislikes interruptions

Why throw the fish away too? It's already cooked. Can't I just take the lettuce off?

You can only empty the whole plate here. It won't pass as fish and chips with lettuce on it.

Fine. I'll take it from here.

Recovery begins
